Safety Net

15th December 2021

Dear parents and carers,

Safety Net Guidance for Parents

Safety Net is an educational resource which aims to encourage safe online practice amongst children and their guardians. It is designed to help children stay safe when using digital devices at home.

As Christmas time approaches, it's likely that many of our children will be looking forward to receiving technology-based gifts this year. This means the festive period is a great opportunity to help our families make safer choices when using electronic devices. Please see the attached Parent Guides from Safety Net to help keep your children safer online during the festive period and beyond.

You may also wish to visit <https://www.skipseducational.org/safety-net/> where you will find additional information regarding online safety.

Yours sincerely

Mr Styles
